CORPORATE GOVERNANCE REPORT

Corporate governance at Samhällsbyggnadsbolaget i Norden AB (publ) (hereinafter referred to as "SBB" or "the company") aims to ensure that rights and obligations are distributed among the company's bodies in accordance with applicable laws, rules and processes. An effective and transparent corporate governance gives the owners the opportunity to assert their interests vis-à-vis the company's management, at the same time as the division of responsibility between the management and the Board, but also otherwise within the company, is clear. An effective and transparent corporate governance results in decisions being made effectively, which enables SBB to act quickly when new business opportunities arise.

SBB is a Swedish public limited company whose B shares, D shares and preference shares are listed on Nasdaq Stockholm First North Premier. SBB has also issued bond loans that are listed on Nasdaq Stockholm. SBB's corporate governance is based on law, articles of association, Nasdaq Stockholm's rules for First North (Nasdaq First North Nordic - Rulebook), Nasdaq Stockholm's regulations for issuers of interest-bearing financial instruments, and the rules and recommendations issued by relevant organisations. The Swedish Code of Corporate Governance (the "Code") shall be applied by all companies whose shares are trading on a regulated market. Nasdaq First North does not hold the legal status of a regulated market. SBB is therefore not obliged to comply with the Code but strives to apply the Code in all material aspects. The code is available at www.bolagsstyrning.se, where the Swedish corporate governance model is also described. This corporate governance report is presented in accordance with the Annual Accounts Act and the Code and describes SBB's corporate governance during the fiscal year 2018. This year's Corporate Governance Report strives to avoid repetition of information on what follows from applicable regulations and focuses on reporting on company-specific circumstances for SBB.

At the Annual General Meeting on April 27, 2018, the registered auditing firm Ernst & Young AB was elected as auditor for the period until the Annual General Meeting 2019. The authorized auditor, Ingemar Rindstig, has been appointed as the chief auditor. INTERNAL CONTROL OF FINANCIAL REPORTING AND RISK MANAGEMENT

SBB's internal control of financial reporting is designed to manage risks and ensure high reliability in the processes regarding the preparation of the financial reports and to ensure that applicable accounting requirements and other requirements for SBB as a listed company are complied with. The Board is responsible for the internal control of the company regarding financial reporting. SBB follows the Committee of Sponsoring

Organisations of the Treadway Commission (COSO) framework to evaluate a company's internal control over financial reporting, the Internal Control - Integrated Framework, which consists of the following five components: control environment, risk assessment, control activities, information and communication and follow-up.

CONTROL ENVIRONMENT

Distribution and delegation of responsibility have been documented and communicated in internal documents governing the Board and the company such as;

- The Board's Rules of Procedure
- Instruction to the CEO
- Delegation scheme
- Certification scheme
- Other internal control documents (for example, financial manual)

All internal control documents are regularly updated when changes are made to, for example, legislation, accounting standards or listing requirements and when otherwise needed.

RISK ASSESSMENT

In accordance with the rules of procedure, the Board of Directors, as well as the Audit Committee, review the company's internal control once a year. Identification is made of the risks that are assessed and measures are set to reduce these risks. The auditor is invited to report on his/her internal control report at a board meeting and to the audit committee. The significant risks identified by SBB are errors in accounting and valuation of properties, credit risks, refinancing risks, interest rate risks, tax and VAT, and the risk of fraud, loss or misappropriation of assets.

CONTROL ACTIVITIES

Since the company's financial system is structured so that the conclusion of agreements and payment of invoices, etc. must comply with the decision paths, company signatures and authorizations stated in the internal control documents, there is basically a control structure to counteract and prevent the risks that the company has identified. In addition to these control structures, a number of control activities are carried out to further detect and correct errors and deviations. Such control activities consist of follow-up at various levels in the organisation, such as follow-up and reconciliation in the Board of Directors made decisions, review and comparison of profit items, account reconciliations, approval and reporting of business transactions with the finance department.

COMMUNICATION INFORMATION

SBB has built up an organisation to ensure that financial reporting is correct and effective. The internal control documents clarify who is responsible for what and the daily interaction between the concerned people means that relevant information and communication reaches all parties concerned. The management regularly receives financial information about the company and its subsidiaries regarding the development of letting and other management, review and follow-up of ongoing and future investments and liquidity planning. The board is informed by the management team regarding risk management, internal control and financial reporting. The company's information policy ensures that all information provided externally and internally becomes correct and is given at any suitable time. All employees at SBB have, at various reviews, been involved in influencing the design of relevant internal policies and guidelines and have thus been directly involved in the preparation of these internal control documents.

INTERNAL CONTROL

As has been explained above, a continuous process takes place on an ongoing basis at all levels of the organisation. The Board regularly evaluates the information provided by the company management and the auditors. In addition, the company's auditor reports directly to the Board of directors their observations from the audit and its assessment of the internal control. Of particular importance is the Board's monitoring of the development of the internal control and to ensure that measures are taken regarding any deficiencies and proposals that emerge.

EVALUATION OF THE NEED FOR A SEPARATE INTERNAL AUDIT FUNCTION

No internal audit function is currently established within SBB. The Board has examined the issue and assessed that existing structures for follow-up and evaluation provide a satisfactory basis. All in all, this means that it is not considered justified to have a special unit for internal audit. The decision is reviewed annually.

DEVIATIONS RELATING TO THE CODE

SBB is not bound by, but has voluntarily decided to follow the Code. As mentioned, the code is based on the principle "follow or explain". This means that a company that applies the Code may deviate from individual rules, but must then give an explanation where reasons for the deviation are reported. SBB followed the Code in 2018 without deviations.
